ACET on Liberty Vote's Acquisition of Dominion Voting Systems

Washington, D.C. — The [American Council for Election Technology](#) (ACET), the nation's leading nonpartisan trade association for the election technology sector, issued a statement on Liberty Vote's acquisition of Dominion Voting Systems.

Sara Cutter, Executive Director of ACET, said:

"Liberty Vote's acquisition of Dominion Voting Systems marks one of the most significant shifts in the election technology industry in over a decade. This transition presents a timely opportunity to reinforce our shared, industry-wide commitments to voter-verifiable paper ballots, rigorous independent security audits—such as those conducted through the Election Security Research Forum, in which ACET members actively participate—and strong supply chain integrity. Equally critical is the principle of political neutrality. This is non-negotiable for preserving election integrity and public trust.

We look forward to working closely with Liberty Vote's leadership team to advance these commitments which will strengthen public trust and fortify the foundation of American elections for years to come.

ACET congratulates Liberty Vote on this new chapter."

About ACET

The American Council for Election Technology (ACET) is a national, nonpartisan trade association founded in 2022. Our mission is to advance policies and programs that support the use of election technology to ensure secure, accurate, and transparent elections. ACET provides a collaborative platform for industry leaders to address challenges and develop solutions for election security and accessibility.

Our members include major voting system manufacturers, election technology providers, and innovators in ADA compliance. Together, we are a unified voice advocating for policies that build public trust and advance security.
